

Form 51-101F3

**Report of Management and Directors
on Reserves Data and Other Information**

Management of Eurogas Corporation (the "Company") are responsible for the preparation and disclosure of information with respect to the Company's oil and gas activities in accordance with securities regulatory requirements. This information includes reserves data which are estimates of proved reserves and probable reserves and related future net revenue as at December 31, 2010, estimated using forecast prices and costs.

An independent qualified reserves evaluator, AJM Petroleum Consultants ("AJM"), has evaluated the Company's reserves data. The report of AJM will be filed with securities regulatory authorities concurrently with this report.

The Reserves Committee of the board of directors of the Company has reviewed the Company's procedures for providing information to the independent qualified reserves evaluator, confirmed that a Company representative has met with the independent qualified reserves evaluator to determine whether any restrictions affected the ability of the independent qualified reserves evaluator and qualified reserves auditor to report without reservation and has reviewed the reserves data with management and the independent qualified reserves evaluator.

The Reserves Committee of the board of directors has reviewed the Company's procedures for assembling and reporting other information associated with oil and gas activities and has reviewed that information with management. The board of directors has, on the recommendation of the Reserves Committee, approved

- (a) the content and filing with securities regulatory authorities of Form 51-101F1 containing reserves data and other oil and gas information;
- (b) the filing of Form 51-101F2 which is the report of AJM on the reserves data; and
- (c) the content and filing of this report.

Because the reserves data are based on judgements regarding future events, actual results will vary and the variations may be material.
